

Build America, Buy America Act (BABAA) Compliant
Built Here. Sourced Here. Trusted Everywhere.

Vinylmax Windows proudly supports federally funded projects by meeting the requirements of the Build America, Buy America Act (BABAA). Our commitment to domestic manufacturing and responsible sourcing makes it easy to specify Vinylmax with confidence—without compromising performance, quality, or design.

BABAA Compliance You Can Count On

Vinylmax windows are manufactured in the United States using domestically sourced materials in accordance with BABAA requirements for federal infrastructure projects.

- U.S. Manufacturing: Vinylmax windows are manufactured in our U.S.-based facility
- Domestic Sourcing: Materials comply with BABAA domestic content requirements
- Documentation Available: Manufacturer self-certification available upon request
- Project-Ready: Ideal for federally funded, state, and municipal projects

Why Vinylmax for BABAA Projects

- ✓ **Simplified Specification**
Eliminate sourcing concerns with windows designed to meet compliance requirements.
- ✓ **Proven Performance**
Energy-efficient designs, durable construction, and advanced glass options—without trade-offs.
- ✓ **Consistent Quality**
Precision manufacturing and rigorous quality control ensure dependable results on every project.
- ✓ **Reliable Supply Chain**
Domestic production helps reduce lead times and supply chain uncertainty.

Performance That Goes Beyond Compliance

BABAA compliance is just the starting point. Vinylmax windows also deliver:

- ENERGY STAR®-qualified glass options
- Durable vinyl frames designed for long-term performance
- Multiple styles and configurations to fit project needs
